

Power Armor [v1.0.0]

by MoareAI

Introduction

This mod is created by me, MoareAI, and adds two sets of armors based on armors from [Fallout 3](#) and [Fallout: New Vegas](#). The respective armors are Recon Armor, which is as strong as Gold Armor (and Chainmail Armor), and T-45d Power Armor, which is as strong as Diamond Armor.

Skins

The armors may also be used as skins for the player. The skins are found in “/MoareAI/Skins/”, and you are free to use them as replacement for the default skin (char.png). You are also free to use the precut parts to create your own personal skin, as long as you don't modifies the parts themselves. See “Legal/Copyright” sections for more information.

Requirements

- Minecraft Beta 1.6.5
- [Risugami's ModLoader Beta 1.6.5](#)

Installation

1. Install [Risugami's ModLoader](#)
2. Copy this zip to “%appdata%/.minecraft/mods/”
3. Start up Minecraft
4. *(Optional)* Quit Minecraft and do your changes to
“%appdata%/.minecraft/config/MoareAI's Power Armor.cfg”
5. *(Optional)* Restart Minecraft

Documentation

If you are interested in looking at what this mod is doing, take a look at the Documentation folder found in the folder named MoareAI. Here you find any information connected to this mod, as well as how to craft the armor parts.

Configuration file

In the configuration file, found in “%appdata%/.minecraft/config/” called “MoareAI's Power Armor.cfg”, you may change some of this mods configurations like the Armor and Item IDs used by this mod.

Note that the ArmorID is set automaticly and not in the configure file. The configure file only set the “path” value for the armor, which makes it possible to find the armors if you have other armor mods installed.
